

The Department of Mathematical Sciences Math 124: Test 3 Study Guide

Revised 8.10.2016

The following is provided as a *general guide* for students to focus their study for the test. References are taken from the class text: *College Algebra* (5th edition) by Beecher, Penna and Bittinger. While none of these *exact* problems are on the exam, they will closely resemble the objective and format of the listed questions.
There is not a one to one correspondence.
